Overall Width:

Between 0.5462 inches and 0.5512 inches

Bore Diameter:

Between 1.3778 inches and 1.3780 inches

Overall Outside Diameter:

Between 2.4406 inches and 2.4409 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0006 inches radial and 0.0020 inches radial

Standard Tolerance Designation:

Rbec no.5

Material:

Steel comp e52100 roller

Material Specification:

Ams 6441 assn standard single material response outer ring

Style Designator:

Single row, non-locating, two lip inner ring, cylindrical outer ring, separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
