Overall Width:

Between 2.9950 inches and 3.0000 inches

Bore Diameter:

Between 4.7490 inches and 4.7500 inches

Overall Outside Diameter:

Between 6.9990 inches and 7.0000 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Alignment Type:

Rigid

Standard Tolerance Designation:

Afbma standard tolerance for industrial needle bearings

Special Features:

Oil hole and groove in inner and outer ring

Material:

Steel

Style Designator:

Separable inner race and rollers, hardened and ground

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
