Overall Width:

Between 0.7430 inches and 0.7480 inches

Bore Diameter:

Between 1.1809 inches and 1.1811 inches

Overall Outside Diameter:

Between 2.8341 inches and 2.8346 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Load Direction:

Angular

Bore Shape:

Straight

Internal Fit-up Designation:

Standard

Standard Tolerance Designation:

Abec no.1

Contact Angle:

25.0 degrees

Material:

Steel comp e52100 ball

Style Designator:

Counterbored outer ring, separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
