Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0031 inches radial and 0.0036 inches radial

Standard Tolerance Designation:

Rbec no.5

Special Features:

32slots equally spaced on inner bore, puller groove on inner ring

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A044a0
