Overall Width:

44.00 millimeters

Bore Diameter:

120.00 millimeters

Overall Outside Diameter:

170.00 millimeters

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Load Direction:

Angular

Internal Fit-up Designation:

Standard

Standard Tolerance Designation:

Abec no.5

Bearing Preload Rating:

22.0 pounds

Special Features:

Bearings marked with same ser no., bearings stabilized for operation from m65 degrees f to p500 degrees f

Material:

Steel outer ring

Material Specification:

Ams 6490 assn standard single material response inner ring

Style Designator:

Counterbored outer rings, non-separable, back to back mounting

Test Data Document:

21335-aps33 specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.). And 21335-aps36-a specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.). And 38443-aqc+2-a specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.). And 38443-aqc+9-a specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.).

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
