Overall Width:

Between 3.1300 inches and 3.1600 inches

Bore Diameter:

Between 1.3778 inches and 1.3780 inches

Overall Outside Diameter:

Between 2.8342 inches and 2.8347 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0007 inches radial and 0.0011 inches radial

Special Features:

Retainer silver plated, one outer ring and two separate inner races, locating flange on outer ring

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
