Overall Height:

0.4219 inches

Bore Diameter:

Between 0.7600 inches and 0.7700 inches

Overall Outside Diameter:

1.4375 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Alignment Type:

Rigid

Thrust Directional Capability Designation:

Single

Standard Tolerance Designation:

Afbma standard tolerance for thrust bearings

Special Features:

Cadmium plated band on od

Material:

Steel

Style Designator:

Clutch release, thrust

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
