Overall Width:

Between 0.9348 inches and 0.9448 inches

Bore Diameter:

Between 2.9522 inches and 2.9528 inches

Overall Outside Diameter:

Between 4.1331 inches and 4.1339 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Wire formed

Load Direction:

Angular

Bearing Preload Designation:

Light

Special Features:

Pair of bearings

Material:

Steel

Style Designator:

Universal ground faces, counterbored outer ring, non-separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
