Overall Width:

Between 1.9950 inches and 2.0000 inches

Bore Diameter:

Between 8.4990 inches and 8.5000 inches

Overall Outside Diameter:

Between 11.4990 inches and 11.5000 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0040 inches radial and 0.0060 inches radial

Special Features:

All corner radii 0.0940 in. Max

Style Designator:

Single row, non-locating, two lip inner ring, cylindrical outer ring, separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
