Overall Width:

45.0 millimeters

Bore Diameter:

105.0 millimeters

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Standard Tolerance Designation:

Rbec no.1

Special Features:

Inner ring and rollers assembly and dimension over rollers to be 7.6130 in. And 0.001 in. Maximum clearance between roller ends and lip faces

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
