**Overall Width:**

45.0 millimeters

**Bore Diameter:**

105.0 millimeters

**Surface Finish:**

Ground

**Retainer Fabrication Method:**

Machined

**Bore Shape:**

Straight

**Locating Feature:**

Nonlocating

**Standard Tolerance Designation:**

Rbec no.1

**Special Features:**

Inner ring and rollers assembly and dimension over rollers to be 7.6130 in. And 0.001 in. Maximum clearance between roller ends and lip faces

**Material:**

Steel

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A044a0
