Overall Height:

11.00 millimeters

Overall Outside Diameter:

47.00 millimeters

Bore Smallest Diameter:

30.0 millimeters

Largest Bore Diameter:

30.1 millimeters

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Alignment Type:

Rigid

Thrust Directional Capability Designation:

Single

Standard Tolerance Designation:

Afbma standard tolerance for thrust bearings

Special Features:

Single row, grooved race surface

Material:

Steel retainer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
