**Overall Height:**

11.00 millimeters

**Overall Outside Diameter:**

47.00 millimeters

**Bore Smallest Diameter:**

30.0 millimeters

**Largest Bore Diameter:**

30.1 millimeters

**Surface Finish:**

Ground

**Retainer Fabrication Method:**

Pressed

**Alignment Type:**

Rigid

**Thrust Directional Capability Designation:**

Single

**Standard Tolerance Designation:**

Afbma standard tolerance for thrust bearings

**Special Features:**

Single row, grooved race surface

**Material:**

Steel retainer

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A044a0
