Surface Finish:

Ground

Load Direction:

Radial

Bore Shape:

Straight

Internal Clearance:

0.0003 inches radial and 0.0005 inches radial

Special Features:

Rcontrolled tolerances and internal clearance obtained by selection of 8 balls at assembly also retainment plate held on one side by three flat head screws also one lip outer ring and balls assembled w/retainment plate

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
