Overall Width:

Between 0.3850 inches and 0.3900 inches

Bore Diameter:

Between 0.4367 inches and 0.4370 inches

Overall Outside Diameter:

Between 0.8740 inches and 0.8750 inches

Lubrication Material:

Grease

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Alignment Type:

Rigid

Lubrication Material Specification:

Braycote 631, fscm 98308 mfr ref single material response

Material:

Stainless steel roller

Style Designator:

Separable rollers, no inner race, hardened and ground

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
