Overall Width:

Between 0.3700 inches and 0.3750 inches

Bore Diameter:

Between 0.2495 inches and 0.2500 inches

Overall Outside Diameter:

Between 0.7490 inches and 0.7500 inches

Lubrication Material:

Grease

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Alignment Type:

Rigid

Special Features:

Od of outer race chrome plated also faces of black oxide also ends of inner race cadmium plated also w/o retainment plates

Material:

Steel

Style Designator:

Separable inner race, with roller retainer, hardened and ground

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
