Overall Width:

Between 1.1760 inches and 1.1810 inches

Bore Diameter:

Between 1.1806 inches and 1.1811 inches

Overall Outside Diameter:

Between 1.5743 inches and 1.5748 inches

Lubrication Material:

Lubricant

Alignment Type:

Rigid

Standard Tolerance Designation:

Afbma standard tolerance for industrial needle bearings

Special Features:

Closing ring at both sides

Material:

Steel

Style Designator:

Non-separable, with roller retainer, hardened and ground

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
