Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Alignment Type:

Rigid

Thrust Directional Capability Designation:

Single

Special Features:

Retainer extends beyond races on the bore and od and 16.635 in. Maximum 16.615 in. Min od of retainer also 11.3950 in. Maximum 11.3900 in. Min bore diameter of retainer

Material:

Nickel alloy r-405 retainer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
