Surface Finish:

Ground

Retainer Fabrication Method:

Molded

Load Direction:

Radial

Bore Shape:

Straight

Internal Fit-up Designation:

Standard

Special Features:

One face of outer ring forms lip, snap ring groove on one end of housing, unit to be grease free

Material:

Steel supporting sleeve

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
