Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Load Direction:

Radial

Bore Shape:

Straight

Internal Fit-up Designation:

Standard

Standard Tolerance Designation:

Abec no.5

Special Features:

Grease groove in id of outer ring, 0.1090 in. Diameter hole sin flange spaced 120 degrees apart

Material:

Steel outer ring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
