Overall Height:

0.8070 inches

Overall Outside Diameter:

3.6870 inches

Bore Smallest Diameter:

Between 2.0000 inches and 2.0010 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Alignment Type:

Rigid

Thrust Directional Capability Designation:

Single

Special Features:

Bronze ferrule in id of large washer, large washer under cut to retain ferrule, lubricating notch cut in id of small washer, washers overlap, banded od

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
