Rolling Element Diameter:

Between 0.4275 inches and 0.4475 inches

Special Features:

Durometer hardness 60 porm 5

Material:

Rubber synthetic

Material Specification:

Astm d2000 r615 assn standard single material response

Style Designator:

Ball

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
