Bore Diameter:

30.0 millimeters

Overall Outside Diameter:

2.1654 inches

Outer Ring Width:

0.7850 inches

Inner Ring Width:

13.0 millimeters

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0007 inches radial and 0.0011 inches radial

Standard Tolerance Designation:

Rbec no.5

Special Features:

Anti-rotation lugs on oneside of outer ring

Material:

Steel comp m50 roller

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
