Overall Width:

Between 0.6249 inches and 0.6299 inches

Bore Diameter:

Between 2.0680 inches and 2.0685 inches

Overall Outside Diameter:

Between 2.9523 inches and 2.9528 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Locating Feature:

Nonlocating

Special Features:

Bearing stabilized for operation from m 65 to p 300 degrees f, 0.00008 in. Maximum variation in diameter of rollers

Material:

Steel roller

Material Specification:

Fed-std-66 federal standard single material response roller

Style Designator:

Single row, non-locating, two lip inner ring, cylindrical outer ring, separable

Test Data Document:

51600-es9 specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.). Or 38443-es105aa specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.). Or 38443-qc+2aaa specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.). Or 51600-es12aa specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.). Or 38443-es109aa specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.). Or 38443-qc+5aa specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.).

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
