Cylindrical Roller Bearing - Page 1 of 1

View Online at <https://aerobasegroup.com/nsn/3110-00-410-2927>

Overall Width:

Between 0.5600 inches and 0.5620 inches

Overall Outside Diameter:

Between 3.8115 inches and 3.8123 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Special Features:

Inspect all parts with magnetic particle per mil-i-6868 and bronze /w fluorescent penetrant per mil-i-6868 and temperature stabilized at 350 degrees f

Material:

Steel roller

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
