Cylindrical Roller Bearing - Page 1 of 1

View Online at <https://aerobasegroup.com/nsn/3110-00-410-2927>

**Overall Width:**

Between 0.5600 inches and 0.5620 inches

**Overall Outside Diameter:**

Between 3.8115 inches and 3.8123 inches

**Surface Finish:**

Ground

**Retainer Fabrication Method:**

Machined

**Bore Shape:**

Straight

**Locating Feature:**

Nonlocating

**Special Features:**

Inspect all parts with magnetic particle per mil-i-6868 and bronze /w fluorescent penetrant per mil-i-6868 and temperature stabilized at 350 degrees f

**Material:**

Steel roller

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A044a0
