Overall Width:

Between 0.4674 inches and 0.4724 inches

Bore Diameter:

Between 0.9841 inches and 0.9843 inches

Overall Outside Diameter:

Between 1.8502 inches and 1.8504 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0014 inches radial and 0.0018 inches radial

Standard Tolerance Designation:

Rbec no.5

Material:

Steel roller

Style Designator:

Single row, non-locating, two lip inner ring, cylindrical outer ring, separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A044a0
