Overall Width:

Between 1.2400 inches and 1.2500 inches

Bore Diameter:

Between 1.1245 inches and 1.1250 inches

Overall Outside Diameter:

Between 1.4995 inches and 1.5005 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Alignment Type:

Rigid

Standard Tolerance Designation:

Afbma standard tolerance for industrial needle bearings

Special Features:

Od tapered 0.0025 in. Min to 0.0030 in. Maximum starting 0.0625 in. From one face of bearing

Material:

Steel

Style Designator:

Non-separable, open end, drawn shell

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
