Overall Width:

Between 0.7400 inches and 0.7500 inches

Bore Diameter:

Between 0.8750 inches and 0.8755 inches

Overall Outside Diameter:

Between 1.1245 inches and 1.1255 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Alignment Type:

Rigid

Standard Tolerance Designation:

Afbma standard tolerance for industrial needle bearings

Material:

Steel

Style Designator:

Non-separable, open end, drawn shell

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
