Overall Width:

Between 0.9950 inches and 1.0000 inches

Bore Diameter:

Between 1.3751 inches and 1.3760 inches

Overall Outside Diameter:

Between 1.8745 inches and 1.8750 inches

Surface Finish:

Ground

Alignment Type:

Rigid

Special Features:

0.025 in. Deep groove, 0.156 in. Radius centrally located on od of outer ring

Material:

Steel comp 440c roller

Material Specification:

Ams 5630 assn standard single material response outer ring

Style Designator:

Non-separable, with roller retainer, hardened and ground

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
