Rolling Element Diameter:

0.3750 inches

Standard Tolerance Designation:

Afbma standard tolerance for balls, grade 200

Material:

Nickel alloy k-500

Material Specification:

Qq-n-286, class a federal specification single material response

Style Designator:

Ball

Specification Or Standard:

200 grade and 200 composition

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
