Overall Width:

Between 1.1761 inches and 1.1811 inches

Bore Diameter:

Between 3.5402 inches and 3.5405 inches

Overall Outside Diameter:

Between 6.2987 inches and 6.2992 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0037 inches radial and 0.0047 inches radial

Standard Tolerance Designation:

Rbec no.5

Material:

Steel comp 8620 inner ring

Style Designator:

Single row, non-locating, two lip inner ring, cylindrical outer ring, separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
