Overall Width:

Between 2.0575 inches and 2.0625 inches

Bore Diameter:

Between 4.4990 inches and 4.5000 inches

Overall Outside Diameter:

Between 7.9990 inches and 8.0000 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Standard Tolerance Designation:

Rbec no.1

Material:

Steel roller

Style Designator:

Single row, non-locating, two lip inner ring, cylindrical outer ring, separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
