Overall Width:

Between 1.9682 inches and 1.9685 inches

Bore Diameter:

Between 1.9682 inches and 1.9685 inches

Overall Outside Diameter:

Between 4.3303 inches and 4.3307 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0020 inches radial and 0.0040 inches radial

Material:

Steel roller

Style Designator:

Single row, non-locating, two lip inner ring, cylindrical outer ring, separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
