Overall Width:

Between 0.6249 inches and 0.6299 inches

Bore Diameter:

Between 1.1807 inches and 1.1811 inches

Overall Outside Diameter:

Between 2.4360 inches and 2.4380 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Load Direction:

Angular

Bearing Preload Designation:

Light

Special Features:

40 degrees contact angle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
