Overall Width:

Between 1.2548 inches and 1.2598 inches

Bore Diameter:

Between 3.7398 inches and 3.7402 inches

Overall Outside Diameter:

Between 6.6923 inches and 6.6929 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0070 inches radial and 0.0090 inches radial

Material:

Steel roller

Style Designator:

Single row, non-locating, two lip inner ring, cylindrical outer ring, separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
