Overall Width:

Between 1.1870 inches and 1.1875 inches

Bore Diameter:

Between 1.1807 inches and 1.1811 inches

Overall Outside Diameter:

Between 2.8341 inches and 2.8346 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Load Direction:

Radial

Bore Shape:

Straight

Internal Fit-up Designation:

Standard

Internal Fit-up Contact Angular Direction:

Inward convergent

Standard Tolerance Designation:

Abec no.1

Special Features:

Ball bearing radius .040; ball bearings per row 14

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
