Overall Width:

Between 0.8700 inches and 0.8750 inches

Bore Diameter:

Between 4.7496 inches and 4.7500 inches

Overall Outside Diameter:

Between 6.4980 inches and 6.4985 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0045 inches radial and 0.0055 inches radial

Standard Tolerance Designation:

Rbec no.5

Special Features:

Retainer to be silver plated, ams 2412

Style Designator:

Single row, non-locating, two lip inner ring, cylindrical outer ring, separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
