Overall Width:

Between 0.2400 inches and 0.2500 inches

Bore Diameter:

Between 0.2498 inches and 0.2501 inches

Overall Outside Diameter:

Between 0.4372 inches and 0.4375 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Alignment Type:

Rigid

Special Features:

Residual magnetism not to exceed 3 gauss

Material:

Steel outer ring

Surface Treatment:

Cadmium outer ring

Style Designator:

Non-separable, open end, drawn shell

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
