Overall Width:

Between 1.0480 inches and 1.0500 inches

Bore Diameter:

Between 2.9997 inches and 3.0000 inches

Overall Outside Diameter:

Between 5.2510 inches and 5.2513 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Load Direction:

Radial

Bore Shape:

Straight

Internal Clearance:

0.0021 inches radial and 0.0027 inches radial

Standard Tolerance Designation:

Abec no.5

Material:

Steel comp m50 outer ring

Material Specification:

Ams 6490 assn standard single material response inner ring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A044a0
