Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Nonlocating

Internal Clearance:

0.0009 inches radial and 0.0062 inches radial

Standard Tolerance Designation:

Rbec no.5

Special Features:

No outer ring, qualified by sikorsky aircraft div of united aircraft corporation in accordance with mil-t-8679

Material:

Steel roller

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
