Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Load Direction:

Radial

Bore Shape:

Straight

Internal Clearance:

0.0014 inches radial and 0.0055 inches radial

Special Features:

Split inner ring; inner and outer rings tin plated ; 0.0120 in. Min, 0.0150 in. Maximum axial clearance

Material:

Steel outer ring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
