Overall Height:

Between 0.4950 inches and 0.5050 inches

Bore Diameter:

Between 0.7580 inches and 0.7640 inches

Overall Outside Diameter:

Between 1.6250 inches and 1.6350 inches

Surface Finish:

Unground

Retainer Fabrication Method:

Machined

Alignment Type:

Rigid

Thrust Directional Capability Designation:

Single

Special Features:

Oil hole in band also 1/32 in. By 45 degrees bore radius

Material:

Steel

Style Designator:

Tapered rollers, banded od

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
