**Overall Width:**

Between 1.1050 inches and 1.1250 inches

**Bore Diameter:**

Between 4.5267 inches and 4.5273 inches

**Overall Outside Diameter:**

Between 5.9048 inches and 5.9058 inches

**Surface Finish:**

Ground

**Retainer Fabrication Method:**

Molded

**Load Direction:**

Radial

**Bearing Preload Rating:**

100.0 pounds

**Special Features:**

Ybore and od surfaces coppe plate d per ams 2640 0.0001 in. To 0.0003 in. Thk, raceways not to exceed 8 microinches aa, assembly relationship marking v on od surface of bearing elements, same serial no. Permanently marked oneach bearing

**Style Designator:**

Counterbored outer rings, non-separable, tandem mounting

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A044a0
