Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Shield Quantity:

1

Load Direction:

Radial

Standard Tolerance Designation:

Abec no.5

Bearing Preload Rating:

5.0 pounds

Special Features:

Pair of bearings flush ground for duplex mounting w/unshielded sides together

Material:

Stainless steel

Specification Or Standard:

115 type and 50 grade

Departure From Cited Designator:

As modified by bearing preload rating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
