Overall Outside Diameter:

3.5620 inches

Bore Smallest Diameter:

1.7550 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Alignment Type:

Rigid

Thrust Directional Capability Designation:

Single

Special Features:

Bearing assembled with sleeve pressed in bore, 2.5625 inch bearing and sleeve assembly height, banded

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
