**Overall Width:**

Between 0.5856 inches and 0.5906 inches

**Bore Diameter:**

Between 1.5746 inches and 1.5748 inches

**Overall Outside Diameter:**

Between 2.6769 inches and 2.6772 inches

**Surface Finish:**

Ground

**Retainer Fabrication Method:**

Machined

**Bore Shape:**

Straight

**Locating Feature:**

Nonlocating

**Internal Clearance:**

0.0011 inches radial and 0.0021 inches radial

**Standard Tolerance Designation:**

Rbec no.5

**Special Features:**

Silver plated retainer

**Material:**

Steel comp e52100 roller

**Material Specification:**

66 federal standard single material response outer ring

**Style Designator:**

Single row, non-locating, two lip inner ring, cylindrical outer ring, separable

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A044a0
