Seal Quantity:

1

Bearing Seal Type:

Contact

Alignment Type:

Rigid

Special Features:

Bell helicopter and vendor part no. Permanently marked on face of bearing, surface finish raceway 10 uin aa max, rollers 4 uin aa max, max roller dia variation 0.0001 in. Per bearing at roller mid lg, max diameter variation per roller 0.00005 in., bearing protected w/petroleum per mil-c-11796 cl 2

Material:

Steel roller

Material Specification:

204-010-783-1, 97499 mfr ref all material responses seal

Style Designator:

Separable rollers, closed end, drawn shell

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
