Overall Width:

Between 1.3388 inches and 1.3438 inches

Bore Diameter:

Between 0.7500 inches and 0.7505 inches

Overall Outside Diameter:

Between 1.8499 inches and 1.8504 inches

Lubrication Material:

Grease

Outer Ring Width:

14.00 millimeters

Surface Finish:

Ground

Seal Quantity:

2

Bearing Seal Type:

Labyrinth

Load Direction:

Radial

Bore Shape:

Straight

Internal Fit-up Designation:

Standard

Special Features:

Furnished w/retaining ring

Lubrication Material:

Grease

Lubrication Material Specification:

Od-g-24508 military specification single material response

Material:

Steel

Style Designator:

Single row ball, external self-aligning, inner ring extended both sides, with eccentric locking collar

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0

Mil-std (military Standard):

spec.
