Overall Width:

Between 0.4950 inches and 0.5000 inches

Bore Diameter:

Between 0.5011 inches and 0.5020 inches

Overall Outside Diameter:

Between 0.6873 inches and 0.6877 inches

Surface Finish:

Ground

Alignment Type:

Rigid

Special Features:

Outer race rc54 min, rollers rc52 min, one outside corners 0.010 min to .030 maximum radius, one outside corner 0.200 min to .040 maximum radius, stabilized for min distortion at 700 degrees f

Material:

Steel comp 440c

Style Designator:

Separable rollers, no inner race, hardened and ground

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
